SUMMARY

Motivated and detail-oriented Computer Science student seeking a software development role to contribute to real-world projects, strengthen technical skills, and grow in a collaborative, fast-paced environment. Eager to take on challenges and apply programming knowledge to build practical, impactful solutions.

EDUCATION

MCA - Master of Computer Applications

SASTRA DEEMED TO BE UNIVERSITY, Thanjavur

- CGPA 7.9

Bachelor of Science in MATHEMATICS

St. Joseph's College Autonomous, Trichy

- CGPA 6.9

12th Standard (Computer Science)

Chellammal Matriculation Boys Higher Secondary School, Vengur, Trichy

- Percentage 85.315

10th Standard

Chellammal Matriculation Boys Higher Secondary School, Vengur, Trichy

- Percentage 76.8

Project

Title: Tomato Quality Classification Based on Transfer Learning Feature Extraction and Machine Learning Algorithm Classifiers

Developed a CNN (InceptionV3) + SVM-based tomato quality classification system with 97% accuracy, using transfer learning and ML classifiers. Integrated the model into a web application using Flask/Django for real-time tomato quality detection.

Title: A multi-class hybrid variational autoencoder and MobileNetV2 model for enhanced plant disease identification

Developed a hybrid VAE + MobileNetV2-based plant disease classification system with 94.3% accuracy, leveraging deep feature extraction and transfer learning. Integrated the model into a web application using Flask/Django for real-time plant disease detection.

SKILLS

Languages	C, Core Java, Python Programming
Tools/Frameworks	Flask/Django
Databases	MySQL
Other Skills	Knowledge in AI/ML and Software Engineering Soft Skills: Problem-solving, Time management, Adaptability

I hereby assure that the above mentioned details are true.
